Software Engineer | Cloud Computing Specialist

ABOUT ME

Innovative Software Engineer with a strong foundation in Python, Java, and Cloud Computing. Experienced in building containerized REST APIs, automating CI/CD pipelines, and developing full-stack solutions using Django and FastAPI. A proactive Technical Mentor at WeThinkCode_ with a proven ability to lead Agile teams, conduct rigorous code reviews, and solve complex architectural challenges. Google Certified in Cybersecurity and currently advancing cloud specialization through AWS Educate.

EDUCATION

WETHINKCODE_

SEP 2024 - DEC 2025

Occupational Certificate in Software Engineering

- Software design, development, testing, and Agile project management.
